Hello everyone,

Today we posted "No Trespassing" signs underneath Chandler Bridge that intersects Coldwater Canyon. We will be addressing the West and East side of the bridge. There are large encampments underneath the West side of the bridge. The East side still has a few encampments, however there is a large master lock on the fence as seen in the photos below. Can we please find out who that lock belongs to? If it is unknown, lets have the SOLIDs crew bring grinders or bolt-cutters to break the lock to enter. We will then need to place another lock along the chain.

I have coordinated with CD2 and they will put this location for CARE+ on Monday, May 11, 2020.

Luis and Art, please make sure the crew is notified for this operation.

Diana and Sarah, please make sure that this location is placed as the first location for CARE+ CD2 on Monday since it is a priority of the council district. Also, please make sure LAPD are notified for this operation. We will need LAPD onsite with us @ 0700 hours.

Please see attached posting report for more information.

Thank you all, and let me know if you have any questions.

Best regards,

**Abraham Abrahamian**
